

How to add IADLEST banners to your site

Description This will show you how to add a vendor banner to your site. This will promote vendors going to the National Certification Program site and ultimately signing up for certifications.

Who Applies to any Post, Academy or Agency with a website where training providers may come to find information about certification or to learn how to provide their course to officers.

- Steps**
1. Determine the best place to display the banner for providers to see.
 2. Decide which size and shape of banner fits best on your site.
 3. Copy the appropriate code matching the image size you need to use.
 4. Add the code and save the updated page for your site.
-

Images Leaderboard banner (728 px x 90 px)

Rectangle banner (300 px x 250 px)

Code This code will use one of the images above already located on the iadlest-ncp.org site.

Leaderboard banner

```
<a href="http://iadlest-ncp.org"></a>
```

OR

Rectangle banner

```
<a href="http://iadlest-ncp.org"></a>
```

Alternative Method

Description If you would prefer to host the images on your server, the following information should be used.

- Steps**
1. Download and store the image on the desired server.
 2. Copy the code and paste into the appropriate place in your site.
 3. Replace “**URL**” in the Code with the URL for the image on your server.
 4. Save the new page on your server.
-

Downloads If you are downloading the images, these links will allow you to do that.
